

# More power, more efficiency, more savings

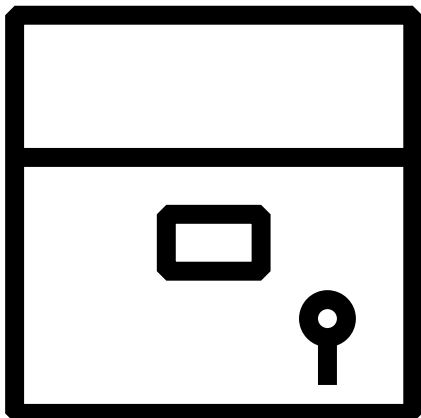

## PVS-100/120 three-phase string inverter

For ground mounted and rooftop commercial and industrial applications

**6**

Reasons you can count on the **PVS-100/120**

**For extremely efficient commercial solar solutions, count on us.**

Contact your local ABB sales rep to find out more  
[abb.com/solarinverters](http://abb.com/solarinverters)

**1**

### High Power Density

**50% fewer inverters** required on site, reducing installation and logistics costs

**2**

### Easy to Install

**Save time and costs** on site preparation and commissioning

**3**

### Maximized Flexibility

**Six MPPT** wide input voltage range platform for easy adaptation

**4**

### Combiner-Free Design

**All-in-one** integrated string combiner reduces capex and opex costs

**5**

### Advanced Communication

Commission and troubleshoot all units with **standard mobile devices** from a single access point

**6**

### O&M Friendly

**Modular Construction & Advanced Cooling System** minimizes O&M costs
