TERRANUOVA BRACCIOLINI, ITALY, FEBRUARY 2th, 2025

FIMER: Alberto Pinori Appointed New Head of Sales and Marketing Italy

Alberto Pinori to lead Sales & Marketing activities in Italy as part of the company's strategy of innovation and accelerated growth

FIMER – a global player in the photovoltaic inverter sector for residential, commercial and utility-scale applications – enters 2026 as a year of transformation and strategic relaunch.

In a market environment characterized by rapid technological and regulatory evolution, the company aims to consolidate its renewal path, strengthen its market positioning, and reaffirm its role as a reliable technology partner.

FIMER announces the appointment of **Alberto Pinori** to a key role within its new organizational structure, entrusting him with responsibility for defining and developing sales and marketing strategies in the Italian market.

Pinori brings to FIMER **solid and widely recognized experience in the photovoltaic sector**, gained at leading companies where he held positions of increasing responsibility. Throughout his career, he has developed distinctive expertise in **customer relationship management, leadership and development of sales teams**, and the management of structured organizations, operating in complex and highly competitive environments.

In his new role, Alberto Pinori will be tasked with implementing a **clear, structured and ambitious commercial policy** aimed at strengthening customer relationships, improving sales effectiveness, and driving sustainable growth of the order portfolio. Within this framework, FIMER will launch **new collaborations and dedicated projects for distribution partners, installers and EPCs**, supported by **structured training programs and advanced technical education for installers**, enhanced after-sales service, and the consolidation of existing relationships across the territory.

The appointment comes at a time of **significant renewal and strategic relaunch for FIMER**, which can now rely on new ownership, a **renewed management team**, and a significant **industrial plan**. The company is strengthening its manufacturing capabilities through the introduction of **new patents and technological solutions**, with the objective of increasing competitiveness, innovation and reliability.
