

## **PRESS RELEASE**

TERRANUOVA BRACCIOLINI, ITALY, AUGUST 2025

### **FIMER JOINS SOLARPOWER EUROPE CONSOLIDATING ITS COMMITMENT TOWARD A SUSTAINABLE ENERGY FUTURE**

#### **A strategic step to strengthen its role in renewable energy at European level**

**FIMER**, global player in the solar inverter sector, proudly announces its membership in **SolarPower Europe**, the leading association representing organizations and companies across the solar power value chain in Europe.

This exciting milestone marks a significant step forward in our mission to shape the future of energy, and reflects FIMER's commitment to supporting the global energy transition.

SolarPower Europe is at the forefront of driving solar energy policy, market development, and innovation across Europe. By joining this influential network, FIMER gains a powerful platform to:

- Influence European solar policies and regulations;
- Cooperate with industry leaders and innovators;
- Stay ahead of market trends and technological developments;
- Contribute to the transition toward a cleaner, more sustainable energy system.

With more than 300 members, SolarPower Europe promotes the development of solar energy as a central pillar of the energy system of the future. With its expertise in inverter solutions, FIMER will contribute, ensuring solar energy continues to grow as a cornerstone of Europe's energy landscape.

This partnership opens the door to new initiatives, strategic collaborations, and high-level engagements within the solar energy community. It also provides a valuable platform for our teams to participate in working groups, access cutting-edge market intelligence, and take part in key industry events. Together with SolarPower Europe, FIMER is ready to accelerate innovation and support the expansion of solar energy worldwide.

Any updates on upcoming initiatives will be published on [www.fimer.com](http://www.fimer.com) website and the Company's official social channels.

#### **About FIMER**

**FIMER** is a brand owned by MA Solar Italy and a leading manufacturer of renewable energy solutions. The Company, specializing in the production of solar inverters, offers a wide range of solutions designed for any application. With local training centers, 2 production sites, one in Italy and one in India, FIMER is close to its customers in the evolving dynamics of the energy sector.
