Class II Permissive Change. Power output listed is conducted. Single Modular Approval. This module is granted for use in mobile only configuration as described in this filing. Approval is limited to OEM installation only. Only the antenna tested with the device or similar antenna with equal or lesser gain may be used with this transmitter. The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter, except in accordance with FCC multi-transmitter product procedures. OEM integrators and end-users must be provided with specific operating instructions for satisfying RF exposure compliance requirements. This device has 20 MHz and 40 MHz bandwidth modes.
