

EV charger accessory

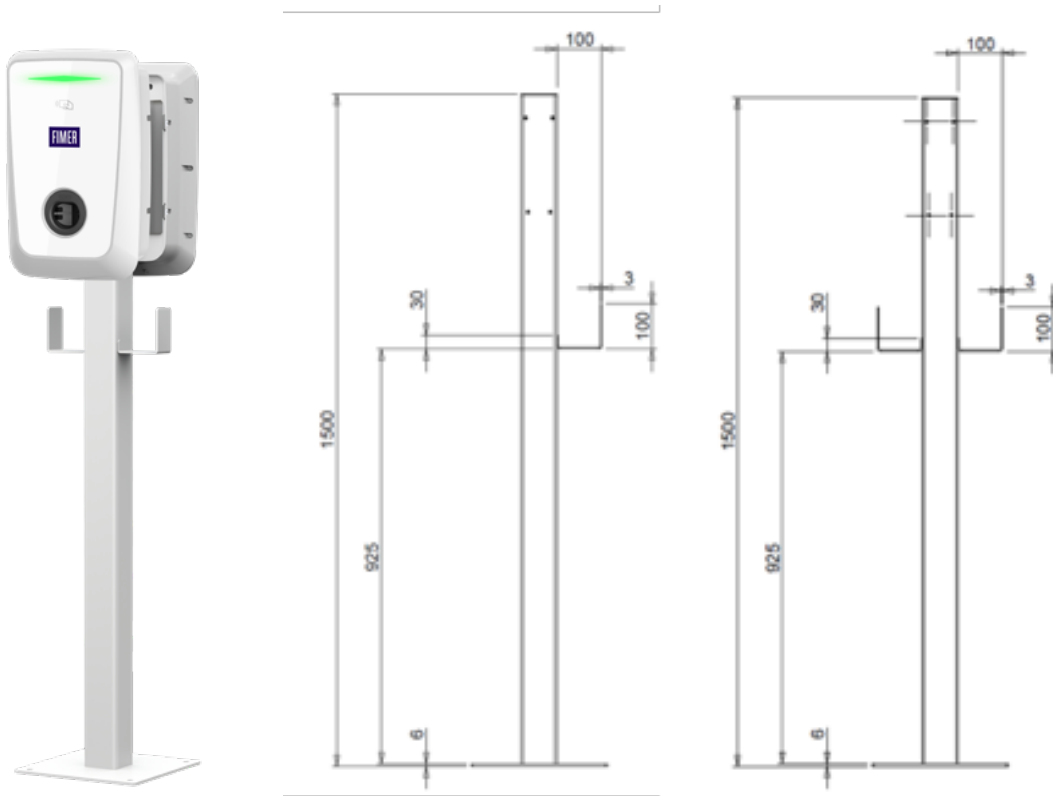

FIMER FLEXA

Stand-Basic

With compact design and flexibility, this support is available in single and double charging modes. It is suitable for all versions of the FIMER FLEXA AC Wallbox and for all positioning needs, both outdoor and indoor.

FIMER FLEXA Stand-Basic is a support suitable for all the different configurations of FIMER FLEXA AC Wallbox. Its compact and essential design answers all the different positioning needs in places where a wall is not available, either for residential, commercial and public applications.

FIMER FLEXA Stand-Basic is made of sturdy material and suitable for outdoor and indoor installations. Both versions of the product are equipped with "L" support, designed to offer a practical stand for the charging cable.
